

OUR HISTORY

Students Travel and Exposure South Africa a registered Non Governmental Organization, which was established by a group of people who approached schools, hospitals, NGOs, and the local communities to offer their services as volunteers. The group main objective is to work for the uplifting of the communities, hospitals, schools and colleges through capacity building, development, and empowerment. One of the biggest challenges that the group faced was the racism, poverty alleviation, school dropouts, communities developments, community volunteer and unemployment.

AIMS AND OBJECTIVES

Our organization endeavors to implement educational activities that enhance the social, spiritual, academic, political, and economical empowerment of volunteers. We organize educational tours for volunteers and arrange volunteer/internship opportunities for students and youth. Raising funds for various programs involved with **STAESA** is another important aspect to our commitment towards the community. In addition, we are expanding our programs to include professionals in health care, business, law, engineering, social work, education, and other needed areas.

Currently, we have partner organizations in South Africa, Ghana, Kenya, Togo, Tanzania, Benin, Zambia, Swaziland, The Gambia, Botswana, Mali, Senegal, Nigeria, Lesotho, Namibia, Uganda, Mozambique and Cameroon.
